## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Taiwan on 11/12/03. It is noted, however, that applicant has not filed a certified copy of the Taiwanese application as required by 35 U.S.C. 119(b).

### ***Drawings***

2. The drawings, as originally filed, are acceptable as formal.

### ***Claim Objections***

3. Claims 1-3 are objected to because of the following informalities: The claims should avoid language which is implied, such as "improved". Claims 1, 3, "the said" should be avoided. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3682

Claim 1, "(or socket)" is alternative. Also note that anything in parentheses is read out of the claims. Here the Examiner is uncertain what Applicant intended with this parenthetical statement.

Claim 1, "fastened to the bottom extent of the suspended said tap" is indefinite. Specifically, "suspended said tap" is not clear.

Claim 1, "such it can be fastened" is indefinite. It is not clear what Applicant is claiming.

The last line of claim 1 is a negative limitation and should be avoided.

Claim 2, "optimally" is unclear. It is not clear if this is being claimed or just given as an example.

Applicant must review the claims in their entirety to conform to US practice and to amend to be in compliance with 35 USC 112.

### ***Allowable Subject Matter***

6. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

### ***Conclusion***

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information
